

The Harmony Home

A retirement home for the senior citizens

With a mission to provide care and accommodation for the aged and to show its respect for the value of life, Yayasan Sin Chew has embarked on a plan to set up a retirement home for the senior citizens, The Harmony Home.

Since its inception in 2000, Yayasan Sin Chew has been nurturing such an aspiration. The 50-acre Home is located outside Semenyih, Selangor, in a quite and serene environment.

Under the initial plans, The Harmony Home will comprise residential units for the senior citizens, a community centre, a hospice care centre, an organic flower garden and a vegetable garden, among other amenities.

THE PHILOSOPHY :

- To ensure that senior citizens will not have to spend their golden years unattended to and uncared for.
- To contribute selflessly towards the well-being of the aged based on the principles of unreserved universal love.
- To care for all senior citizens as if they are our elders, and mobilise community resources towards their service.
- To respect the great contributions of senior citizens, and strive to preserve and defend their self-esteem and worth.
- To respect life, and help create a place where the elders can live their remaining years in dignity.
